PROFILE

I'm a Medical Laboratory Science student at KNUST with a deep interest in cardiovascular and infectious disease research. My academic focus lies at the intersection of molecular biology and clinical outcomes, exploring how genetic and microbial factors influence treatment response, resistance, and recovery.

I'm driven by a long-term vision to become a cardiothoracic surgeon and researcher, integrating surgical precision with molecular insight to improve patient care and advance translational medicine.

EDUCATION

BSc Medical Laboratory Sciences

January 2022 – Present

Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana

WASSCE (General Science)

September 2019 – October 2022

Presbyterian Boys' Senior High School

WORK EXPERIENCE

Laboratory Intern

September 2024 – November 2024

Eastern Regional Hospital, Koforidua

- Assisted in the collection, labeling, and preliminary processing of various patient samples, including blood, urine, and sputum, under supervision.
- Supported diagnostic procedures such as microscopy, culture, and biochemical testing, contributing to accurate and timely patient diagnoses.
- Maintained meticulous laboratory records and logs, ensuring data accuracy and adherence to standard operating procedures.
- Gained hands-on experience in laboratory workflow, sample management, and professional interaction with both patients and healthcare staff.

PROFESSIONAL TRAINING/ CERTIFICATION

[Bioinformatics Course](#)

23rd -29th April, 2025

Genomac Institute Inc., USA

[First Aid Training](#)

19th March, 2023

Ghana Ambulance Service

Aspire Leaders

LEADERSHIP EXPERIENCE

Editor-in-Chief

August 2024 – August 2025

Medical Laboratory Sciences Students' Association – KNUST

- Led the design and publication of flyers, announcements, and publicity materials to promote events, academic programs, and student initiatives.
- Collaborated with the publicity team to enhance communication strategies and student engagement across digital platforms.
- Contributed to the association's visibility by supporting outreach efforts and maintaining consistent, professional visual communication.

Editor-in-Chief

August 2024 – August 2025

Faculty of Allied Health Sciences Students' Association – KNUST

- Coordinated the design and promotion of branded materials, including faculty cloths, T-shirts, and event flyers, to foster a strong sense of identity across departments.
- Played a key role in planning and publicizing the Faculty Week celebration, successfully uniting students from Medical Laboratory Sciences, Medical Imaging, and Physiotherapy & Sports Science.
- Collaborated with representatives from various departments to enhance student engagement and strengthen interdepartmental communication and unity.

Media and Publicity Team Head

June 2024 - Present

Grinwish Foundation - Kumasi

- Created digital content and managed social media platforms, boosting public engagement and attracting support for donation drives.
- Collaborated with team members to document outreach activities, using visual storytelling to highlight the foundation's community impact.

Assistant Music Director

January 2023 – July 2025

Full Gospel Campus Ministry – KNUST

- Coordinate and direct weekly rehearsals, fostering teamwork and creativity among choir members.
- Organize musical events, developing leadership, event planning, and communication skills applicable to collaborative environments.
- Mentor new members, cultivating an inclusive and supportive atmosphere for personal and artistic growth.

VOLUNTARY/EXTRA-CURRICULAR ACTIVITY

Health Outreach Volunteer

March 2025

Medical Laboratory Sciences Students' Association – KNUST

- Organized a health outreach at St. Louis Senior High School, delivering essential medical screenings and health education to students.
- Phlebotomized participants and conducted diagnostic tests, including typhoid antibody testing, Blood Grouping, and Malaria RDT, while educating them on preventive healthcare practices.
([Click to show Certificate of Participation](#))

Grinwish Donation

March 2025

Grinwish Foundation – Donation at School for Children with Neurodegenerative Disorders

- Assisted in organizing and coordinating the donation event, ensuring smooth logistics and participant engagement.
- Interacted compassionately with children and staff, helping to create a warm and inclusive environment during the outreach.

SKILLS AND ABILITIES

- **Laboratory Skills:** Hb electrophoresis, blood film preparation, biochemical assays
- **Software:** Python, Microsoft Office Suite, Adobe Creative Suite (Photoshop, Illustrator, Lightroom), Figma
- **Languages:** English, Akan, Ewe.

REFEREES

Dr. (MLS. D) Kingsley Ohene Keteku

Senior Technician

Department of Medical Diagnostics

Kwame Nkrumah University of Science and Technology
